

Croatia - National Parks of Dalmatia by Bike and Boat Tour (2025)
Guided or Individual Self-Guided
8 days / 7 nights

Croatia has a beautiful coast with thousands of islands, reefs, and bays. Numerous romantic ruins, charming hills, countless natural beauties and phenomena are just waiting to be discovered. We invite you to spend a week on one of our ships, cruising between the mainland and the islands on one of our easiest tours.

Delicious cuisine, beautiful sites, a friendly crew, and knowledgeable tour guides await your arrival. Starting in Trogir, we visit two National Parks as well as the islands of Central Dalmatia.

Highlights of the tour include UNESCO protected old town of Trogir, Primošten, Šibenik, with its famous cathedral, and Zadar, as well as the National Park Krka-Waterfalls, and the Kornati Islands. On a romantic motor yacht, our floating accommodation for the week, we discover the charm of the Adriatic in this wonderful way.

Itinerary Day to Day

1st Day (Fri) Trogir (Embarkation) – Rogoznica

Individual arrival either by car to Trogir or by plane to Split. After checking in on the motor yacht between 2 and 2:30 pm in Trogir we head off on our first cruise at 3 pm to Rogoznica - a village on a small island that is connected to the mainland by a dam. Here we spend our first night.

2nd Day (Sat) Vodice - Island of Murter - Nature Park Telašćica (aprx. 16 mi./26 km)

In the morning we enjoy our breakfast during a morning cruise to the seaside city of Vodice. From here we start our bike tour to the island of Murter, connected to the mainland by a lift bridge in the town of Tisno. We cycle over the bridge and along the waterfront, passing by two old coastal villages, until we reach a small jetty. From here, we enjoy a spectacular cruise through the Kornati National Park, an archipelago in crystal clear water, known

for its rich aquatic life, until we reach the Telašćica Nature Park. In the evening, we take a walk through the park and along the island's stunning cliffs. A salt lake and a family of donkey also characterise the nature park and make for a wonderful location to spend a quiet night.

3rd Day (Sun) Island of Dugi Otok - Brbinj – Zadar (aprx. 19 mi./32 km)

After breakfast we start our bike tour from the Telašćica Nature Park, along a virtually traffic-free, panoramic road across the island. During the ride we're treated to countless unforgettable views of neighbouring islands, breaking through the deep blue sea. We meet the ship in Brbinj and board for a crossing to the city of Zadar, which for centuries was the political, cultural, and spiritual centre of

Dalmatia. Once we arrive, there is the opportunity to take part in a walking tour during which you will find out all about this fascinating city while strolling through the winding alleys and the lively old town, characterised by 3,000 years of history. The night is spent in Zadar.

4th Day (Mon) Islands of Ugljan and Pašman – Vodice (aprx. 20 mi./33 km)

During breakfast, the boat crosses the channel of Zadar to the island of Ugljan. Today there is plenty of time to cycle across and explore both the islands Ugljan and Pašman, connected by a bridge, with their quaint villages characterized by stone cottages and fishing vessels. As we cycle along the east coast, we can enjoy beautiful views of the sea and the mainland. After our bike tour, we revisit the coastal city of Vodice, this time for the night.

5th Day (Tue) Vodice – Skradin - National Park of Krka (aprx. 22 mi./35 km)

Today is a real highlight! Today's cycling tour leads along varied roads through remote villages in the Dalmatian inland to the beautiful port of Skradin, located at the foot of the Krka Canyon. In the afternoon, we take a small boat to the Krka National Park where we have plenty of time to explore the unique and truly spectacular Krka Waterfalls on foot. The night is spent in the postcard town of Skradin.

6th Day (Wed) Skradin - Šibenik – Primošten (aprx. 17 mi./28 km)

During breakfast the boat departs Skradin and makes its way down the Krka River back towards the sea and the city of Šibenik. Here we have time to explore the city, home to the Cathedral of St. Jacob, a UNESCO World Heritage Site, and the most beautiful sacral building on the Adriatic coast. Afterwards, we board the ship and navigate to Primošten where we undertake a bike tour in the afternoon to Rogoznica and back. The night is spent in Primošten.

7th Day (Thu) Island of Šolta - Trogir (aprx. 9 mi./15 km)

In the morning, we cruise to the island of Šolta. Olive and fig trees as well as lush farmland border the streets. The spicy smell of rosemary follows us throughout the whole tour around the tranquil island until we reach the village Grohote. At mid-day, we enjoy our last cruise back to Trogir. Here we have enough time to visit the UNESCO World Heritage old town. Our last dinner gives us time to reminisce on the week that past and to say goodbye to fellow travellers, the crew, and tour guides.

8th Day (Fri) Trogir (Disembarkation)

After breakfast disembarkation until 9 am followed by individual trip home or extended stay in Croatia.

Technical Characteristics: Route Profile: Relatively Easy. The bike routes require a basic level of fitness, which you should have acquired by occasional or daily cycling. The routes can reach an altitude of 100 – 300 meters. The daily routes, of 15 to 35 km, cover hilly terrain and can be completed without time constraints. You will also come across some rather steep climbs, where walking your bike is of course permitted. The roads are mostly asphalted and there is little traffic outside of holiday periods. This tour is primarily a guided group tour. Upon consultation with your tour guides, the possibility to cycle on your own along recommended, suitable routes, may present itself. You are free to set aside a half or full day to swim or spend on board the boat, instead of taking a planned bicycle-tour. Helmets use is mandatory on all cycling tours. You are strongly encouraged to bring your own well-fitted helmet. Rental helmets are available on board in limited number (on request). **Distance:** 140 km
